LEARNING OBJECTIVES

- To enable the interdisciplinary discussion and collaboration in the care of patients with breast cancer
- To understand subtype-specific breast cancer management
- To improve the understanding of current radiological and pathological diagnostics
- To understand the current developments in loco-regional treatments
- To learn about the latest developments in neoadjuvant and adjuvant therapies
- To gain insight into the role of complementary and lifestyle interventions and supportive care
- To review approaches to the care of patients with advanced breast cancer
- To learn about specific needs of young patients with breast cancer

ACCREDITATION

The programme of this event has been accredited with **9 ESMO-MORA category 1 points**.
Recertification is necessary for medical oncologists to remain professionally certified by ESMO. Recertification guarantees that a certified medical oncologist has continued to update his/her knowledge and continues to possess the necessary skills and standards for the practice of medical oncology. For further details please refer to esmo.org.
