

Invitation

Targeted Anticancer Therapies

Innovative Antibody Engineering: Novel technologies and preclinical and clinical outcomes

Virtual Meeting

16:00–17:00 (CET), 2 March 2021, Channel 1

16:00–16:10

Introduction

Prof. Giuseppe Curigliano

European Institute of Oncology and University of Milan, Milan, Italy

16:10–16:30

Antibody engineering: Novel technologies, antibody drug conjugates and mechanisms of action

Prof. Matthias Peipp

Christian-Albrechts-University, Kiel, Germany

16:30–16:50

Emerging preclinical and clinical data with novel antibody drug conjugates in various tumour types

Prof. Giuseppe Curigliano

European Institute of Oncology and University of Milan, Milan, Italy

16:50–17:00

Q&A, conclusions
